Auditor-Controller

SUBJECT: **DEPARTMENT OF CHILDREN AND FAMILY SERVICES GROUP
HOME MONITORING – FINAL STATUS REPORT (Board Agenda Item
No. 3, April 14, 2009)**

In April 2009, the Board of Supervisors (Board) instructed the Department of Children and Family Services (DCFS), in conjunction with the Auditor-Controller (A-C) and the Chief Executive Officer, to transition the responsibility for program monitoring of Group Homes (GH) from the A-C to DCFS. Your Board also instructed us to provide semi-annual status reports on DCFS' program monitoring efforts.

During Fiscal Year (FY) 2009-10 and FY 2010-11, the County had contracts with 86 GH operators. Of the 86 GH operators, 42 provided services to only DCFS-placed children, 17 provided services to only Probation Department-placed (Probation) children, and 27 provided services to both DCFS and Probation placed children. After the Board's instructions, DCFS and Probation agreed that Probation would monitor GH operators who served only Probation-placed children. DCFS helped train Probation staff by allowing Probation staff to observe DCFS' GH monitoring reviews.

Results of Review

Our review indicates that DCFS and Probation are effectively monitoring the GH operators. Both departments have developed appropriate monitoring tools to evaluate the GH operators. The departments' monitoring reports identify areas where the GH operators are not complying with their County contracts, and include recommendations

to the GH operators to correct the deficiencies noted in the reviews. The reports also provide the current status of recommendations from our prior GH monitoring reports. Finally, both departments have established protocols to report the results of their monitoring reviews to the Board.

DCFS Status

As noted in our prior status reports, DCFS initially planned to monitor all 69 GH operators who had DCFS-placed children (42 GH operators with only DCFS children, plus 27 GH operators with DCFS and Probation children) at least once a year. DCFS did not achieve their goal of monitoring all 69 GH operators during FY 2009-10, because all the DCFS GH monitors were temporarily reassigned near the end of the fiscal year to review Foster Family Agencies. As a result, DCFS revised their goal to review and issue reports on all 69 GH operators by the end of FY 2010-11.

As of August 15, 2011, DCFS had completed reviews of 65 (94%) of the 69 GH operators, and issued 77 monitoring reports. The number of reports exceeds the number of operators because DCFS issued two reports for 12 operators. DCFS did not issue monitoring reports on the remaining four operators, but is currently finalizing those reports. Attachment I is a list of the 69 GH operators and the status of the monitoring reports.

In our October 2010 status report, we recommended that DCFS management develop a detailed monitoring plan that includes a staffing plan and estimated start date for each review. DCFS did develop a monitoring plan for FY 2010-2011. However, in FY 2010-11, DCFS permanently transferred seven of the 13 GH monitoring staff to the new Investigation Section to investigate allegations of child abuse and neglect. The staff redeployment delayed completion of the planned GH monitoring reviews.

Based on DCFS' monitoring efforts over the last two years and the permanent reduction in the Department's GH monitoring staff, it will be difficult for DCFS to achieve their goal of monitoring all 69 GH operators with DCFS-placed children at least once a year. In addition, we noted that some of the operators who had two reports issued did not appear to be the highest-risk risk or have significant prior findings. We recommend that DCFS develop and implement a risk-based plan to monitor all GH operators at least once every two years, and monitor high-risk GH operators with significant prior findings more frequently.

Recommendation

- 1. DCFS management develop and implement a risk-based plan to monitor all GH operators at least once every two years, and monitor GH operators with significant prior findings more frequently.**

Probation Status

As noted earlier, Probation is responsible for monitoring operators who have only Probation-placed children. Probation's monitoring plan included reviewing all 17 GH operators who provided services to Probation-placed children at least once a year. In July 2010, Probation started monitoring the 17 GH operators. As of August 15, 2011, Probation had completed reviews and issued reports for 13 (76%) of the operators, and is finalizing the reports for the remaining four operators. Probation plans to issue the remaining four reports by September 1, 2011. Attachment II is a list of the 17 GH operators and the status of the monitoring reports.

Review of Report

We discussed our report with DCFS and Probation management in August 2011. Both departments agree with our report, and will continue their efforts to monitor GHs for program contract compliance.

We thank DCFS and Probation management and staff for their cooperation and assistance during our review. Please call me if you have any questions, or your staff may contact Don Chadwick at (213) 253-0301.
